

GroenLinks in Gouda:

Humane, fair and sustainable

We chose to share ♥

We share our wealth, in order to have a good life. We share our welfare, ensuring everyone has access to healthcare. And we share the city, making sure everyone can enjoy clean air, a green environment and a sustainable future. In Gouda you can be who you are and want to be.

Green Gouda 🌳🐕🐟🐑

There will be more green spaces in Gouda. More parks, natural playgrounds and green schoolyards. We improve the biodiversity in Gouda. We ensure road verges flower and we create pristine places for animals to live in peace.

Clean air and a clean city 🗑️🌱🌟

Air, soil, and water must be free from pollution in Gouda. We accept no litter or junk on our streets.

Excellent healthcare ♥🏥

Everybody has a right to receive the healthcare they need. The municipality ensures that you obtain the care that fits your needs. We want our citizens to know their rights and be able to claim it.

Everyone has enough money 💰

Every person in Gouda has enough money to live properly. We accept no poverty in Gouda. We will implement a basic income experiment in the city.

Space for cyclists and pedestrians 🚲🚶🚚🚗

We believe cyclists and pedestrians should be the prime beneficiaries of the traffic system. We limit car access to the city centre. Lorries are prohibited from entering our vulnerable city and neighbourhoods.

More housing 🏠🏡🏢

Having a home is a right. Thus we ensure the building of a sufficient amount of houses in the city. We decarbonize the housing stock. All new homes must be climate neutral.

Dry feet, cool head 🌧️💧☀️

We increase the amount of green areas in the city, thus reducing flooding and heat stress. Subsidies for green roofs and solar panels will be increased.

Space for meeting others 👤👤👤

We stimulate the development of spaces specifically aimed at social entrepreneurs and young people. Your own neighbourhood becomes a place to meet others.

Active and dynamic city 🏀🎵🏃

Culture, education and sports connect people and neighbourhoods within and throughout the city. Therefore we will increase the opportunities for people to get and keep moving around the city.
